EXPERIENCE

Nielsen *Bangalore, Karnataka*
Member of Technical Staff - 1 **September 2026 – Present**
Software Engineer Intern **March 2025 – August 2026**

- **Panel Management Platform Development:** Developed and enhanced production-grade internal applications for panel and household data management using React, TypeScript, Apollo GraphQL, and Python FastAPI, supporting audience measurement systems across international markets.
- **Household Management System:** Designed and implemented a Household Management Component enabling efficient household profile creation, multi-user associations, and dynamic data management workflows, improving panel data organization and usability for internal stakeholders.
- **Legal Versioning & Compliance Framework:** Built a legal document versioning system integrated with a third-party consent management platform, implementing document version control, policy acceptance tracking, and audit history management to ensure compliance with privacy and regulatory requirements.
- **Incentives & Notification Automation:** Developed an Incentives Management System integrated with Google Chat alerts, enabling real-time notifications, automated event tracking, and streamlined panelist engagement workflows.
- **Metrics Engine Implementation:** Contributed to the development of a metrics engine for collecting, processing, and monitoring system KPIs, enabling data-driven analysis and improved visibility into application performance.
- **Mobile App Development:** Contributed to a native Android application built with Kotlin, developing new features, optimizing existing workflows, and resolving application issues to ensure a seamless and reliable mobile experience.

TECHNICAL SKILLS

Languages: C++, C, Java, Python, Kotlin, Swift, JavaScript, TypeScript, R
Frameworks & Libraries: React.js, React Native, Apollo GraphQL, Node.js, FastAPI, Flask, Django, Tailwind CSS, Bootstrap
Databases & Cloud: PostgreSQL, MongoDB, Firebase, AWS, Docker
Data Analysis & Visualization: MS Excel, Tableau, Power BI, R Studio
Tools/Platform: Git, GitHub, GitLab, Linux, Vitest, Cypress, Android Studio, Xcode, Figma, Adobe XD, Google Colab, Jupyter Notebook
Soft skills: Communication, Critical Thinking, Collaboration, Analytical Skills and Task Coordination

PROJECTS

Music Player Application — *Kotlin, Firebase Firestore, Firebase Authentication, Android Studio* *Sep 2025*

- Developed a native Android music streaming application using Kotlin, featuring playlist management, media playback controls, and an intuitive user interface.
- Integrated Firebase Firestore for real-time data storage and synchronization of user playlists and application data.
- Implemented Firebase Authentication for secure user registration, login, and session management.
- Optimized application performance and user experience through efficient state management and responsive UI design.

AI Chatbot — *Python, Flask, DialoGPT API (Hugging Face), HTML, CSS* *Oct 2024*

- Developed a conversational AI chatbot web application using Microsoft's DialoGPT model from Hugging Face to generate context-aware responses.
- Built backend APIs using Flask to manage user interactions, message processing, and chatbot response generation.
- Designed a responsive web interface using HTML and CSS, enabling seamless real-time communication between users and the chatbot.

SMS Spam Classifier — *Python, Pandas, Scikit-learn, NLTK* *Jun 2024*

- Developed a machine learning model for SMS spam detection using natural language processing and supervised learning techniques.
- Performed data cleaning, text preprocessing, feature engineering, and exploratory data analysis to improve model performance.
- Utilized Scikit-learn and NLTK for model training, evaluation, and text vectorization, achieving accurate message classification.

CERTIFICATIONS

Data Analysis with Tableau — *Salesforce*
Generative AI with LLMs — *DeepLearning.AI*
Programming Fundamentals in Kotlin — *Meta*
Web Development — *Udemy*

ACHIEVEMENTS

Secured a Top 250 rank (237th) among 50,000+ global participants in GSSoC 2025, contributing 80+ merged pull requests to open-source projects.
Recognized as an Innovator at SAP Labs Hack2Build Hackathon for contributing to the design and development of innovative technology solutions and working prototypes.

EDUCATION

Lovely Professional University **August 2022 – August 2026**
Bachelor of Technology – Computer Science and Engineering (CGPA: 9.02) *Phagwara, Punjab*
Delhi Public School Kashi **April 2019 – July 2021**
Intermediate (Percentage: 94.4%) *Varanasi, UP*
Green View Public School **April 2018 – March 2019**
Matriculation (Percentage: 98.6%) *Bhadohi, UP*
